

# Dollars Gifted by Idaho Oilseed Commission

What is Happening With It?

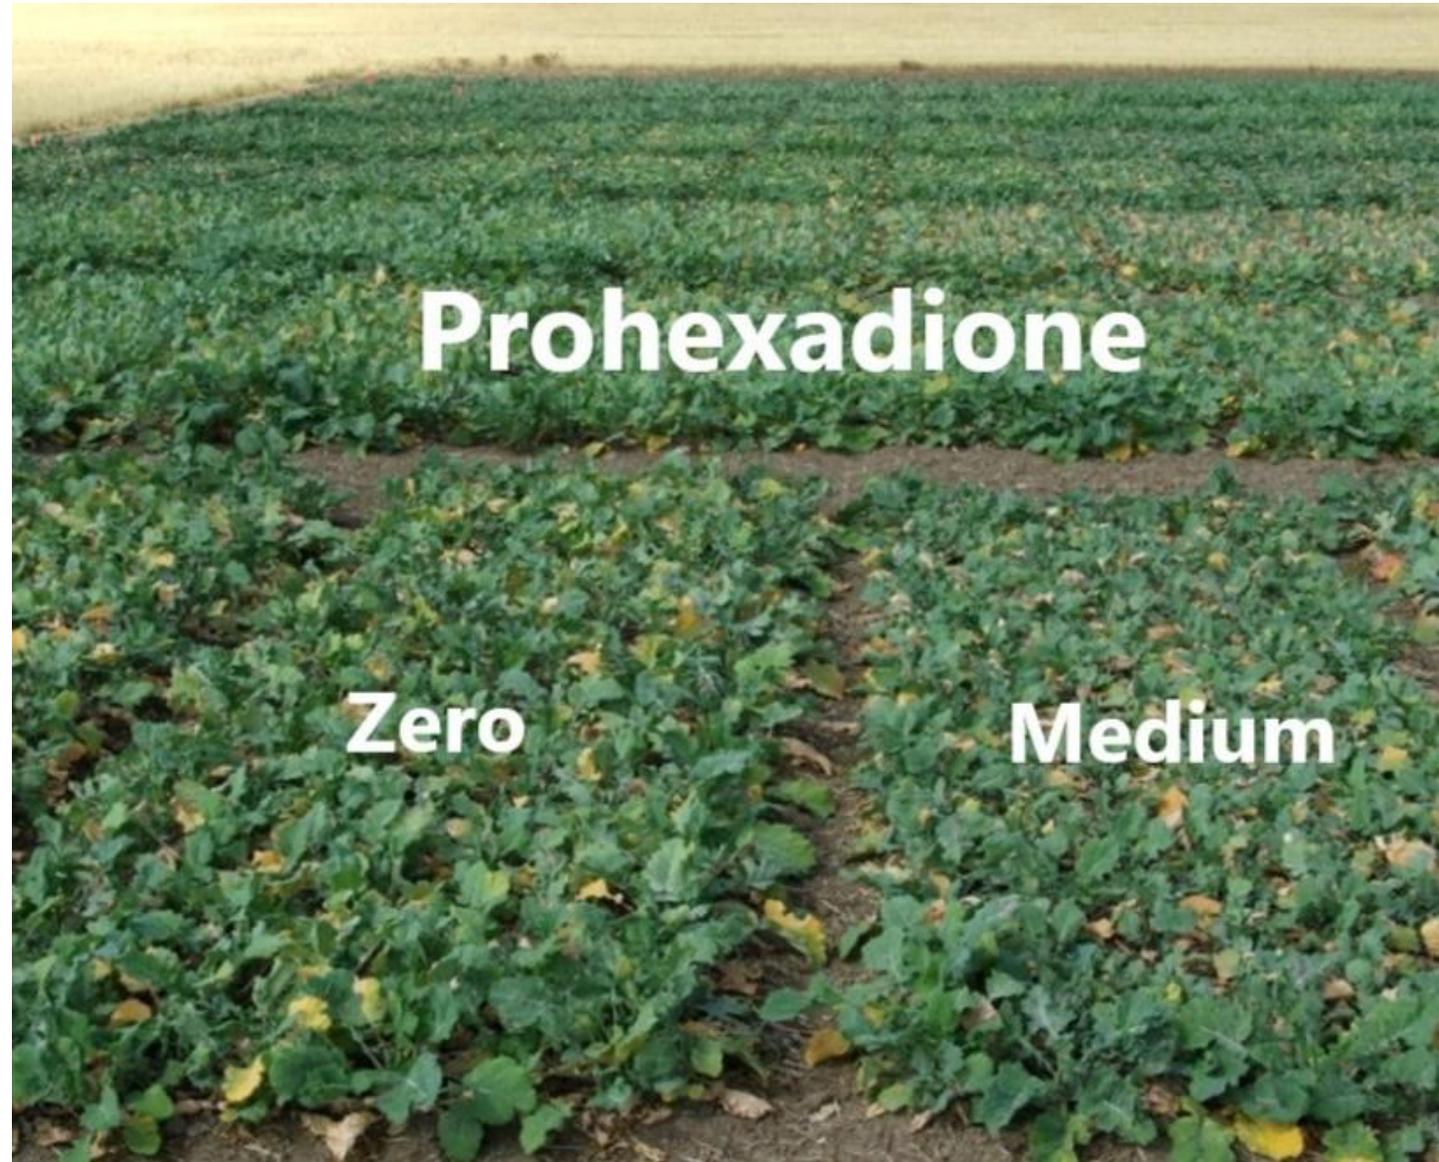

Kamal Khadka  
University of Idaho

PNWCA Workshop  
January 25, 2025

--2019-20

--2020-21

Determine the effect of plant growth regulators on plant morphology and yield potential of early planted winter canola.

--2021

Determine management strategies to minimize seed yield loss in spring canola due to flea beetle infestation

# Gift from Idaho Oilseed Commission

- Establishing my program
- What kind of research should I prioritize using this support?

# Gift from IOC to the canola breeding program

- More applied agronomic research?
  - short-term agronomic research
  - Similar to those PGR/fertilizer trials?
- Invest on breeding cultivars for this region?
  - Initiate work on drought tolerance?
  - Initiate work on Blackleg disease resistance?
  - ??

**Thank You**
