

The InVigor logo features the word "InVigor" in a white, sans-serif font. The letter "V" is stylized with a green leaf-like shape extending from its top right corner. A registered trademark symbol (®) is located to the upper right of the "r".

InVigor[®]

The BASF logo consists of a white square with a smaller white square inside it, positioned to the left of the word "BASF" in a bold, white, sans-serif font. Below "BASF" is the tagline "We create chemistry" in a smaller, white, sans-serif font.

Agronomics Über Alles

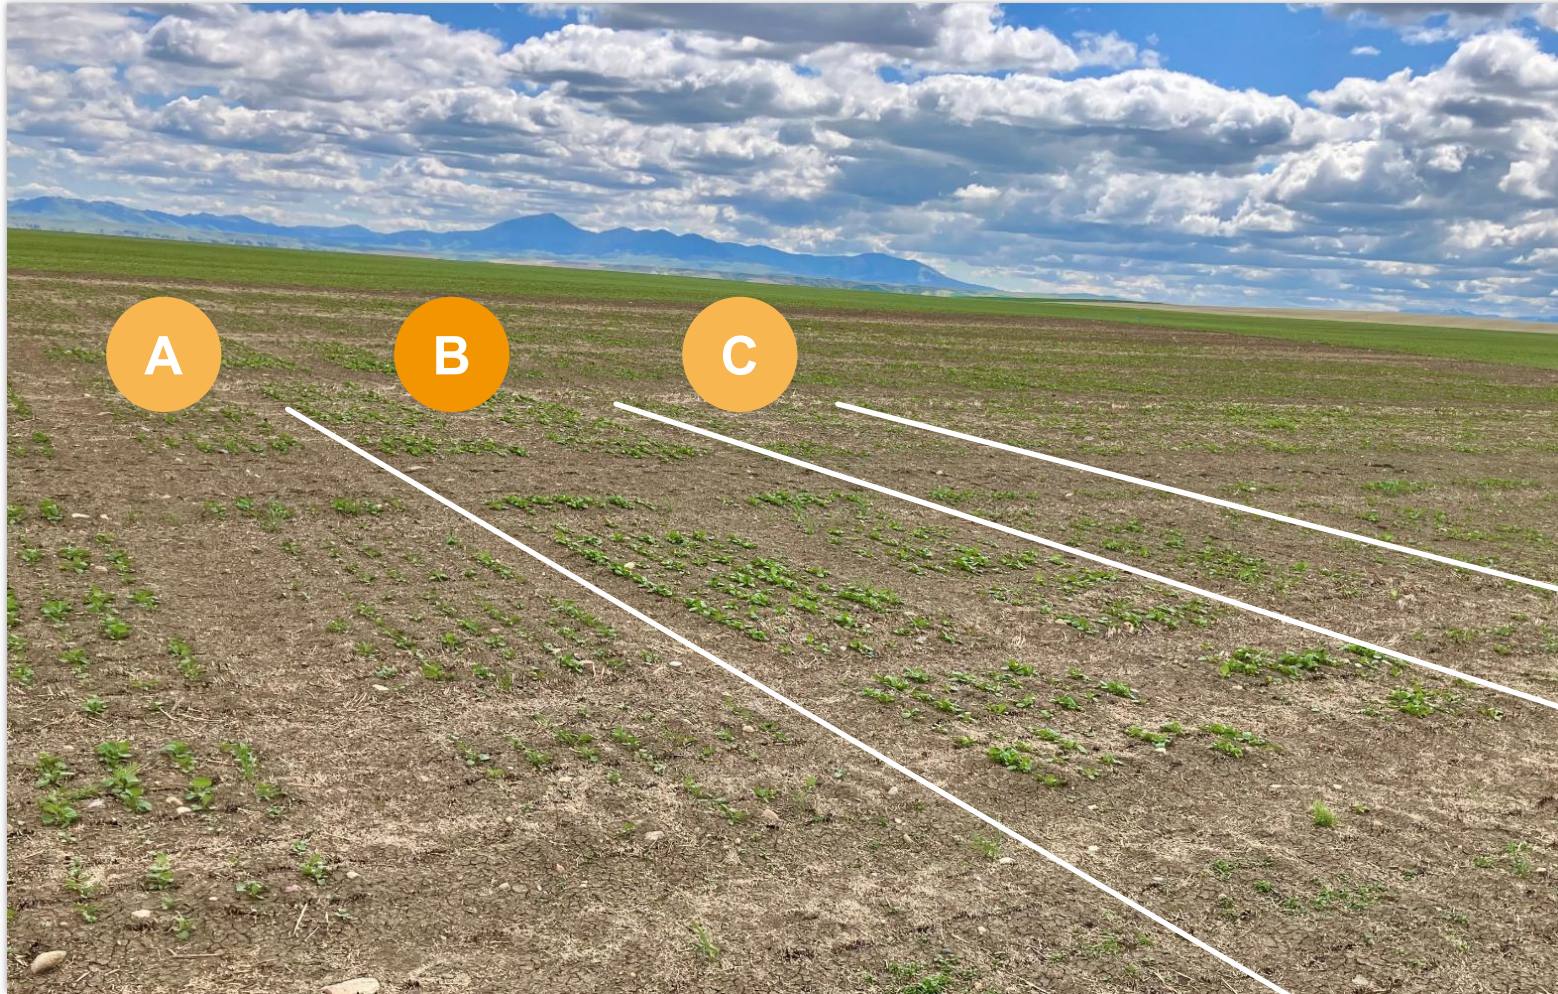

Benefits of InVigor® Gold Canola Seed

- Better heat tolerance from native genetics and best-in-class breeding program (began in 1997).
- Flowering correlation with moisture curve and cooler temperatures.
- Crop rotation benefits for soil health and nutrient cycling – *grow better wheat by growing InVigor Gold.*
- Background tolerance to soil-residual Group 2 chemistries.
- Unique mode of action for kochia control.
- No new equipment or big changes in production practices required.

All the above lead to better yield stability and profitability.

InVigor[®] Gold Performance Comparison

Early Season Vigor

**First Week Of May
Great Falls, MT 2025**

- A** Traditional canola hybrid L345PC
- B** **InVigor[®] Gold Canola**
- C** Traditional canola hybrid L333PC

Plant Date: April 25, 2025.

Very Dry Conditions at stem elongation/flowering.
